## Working History-

- Installed required plugins and additional coding to fit final design and functionality requirements.
- Designed and implemented website from initial concept, site architecture and wire frames to finished deliverable.
- Converted design assets into component-based HTML, CSS and JavaScript.
- Leveraged strong understanding of WordPress core to manipulate admin and theme components.
- Delivered quality commercial websites that met coding standards and cross-browser compatibilities.
- Collaborated with design and project developers to understand project scope and offer elegant, creative and scalable solutions.
- Created and updated re-usable code libraries to streamline WordPress development cycle.
- Designed and executed security measures such as firewalls and encryption.
- Delivered user support to clients to train, educate and answer questions.
- Created powerful Content Management Systems to serve as interface for client.
- Maintained strict budgetary and scheduling guidelines to satisfy customers with high-quality, targeted designs.
- Collaborated with in-house web designers to create sleek and innovative UI design.
